#### 14. Qualitative report

In order to evaluate the quality of the relation with its market counterparty network, the Bank has put in place a quarterly governance (counterparty review committee hereafter) under the legacy of the Trading Floor.

In this instance, the level of global service offered by the counterparty is evaluated on the basis of objective criterias covering the counterparty's rating, market relation, as well as post-trade and regulatory aspects. To this end, each department has put in place a standardized table aiming to rate the provision of services for each counterparty on the key areas below:

- · Quality of execution services,
- · Internal Société Générale rating regarding counterparty risk analysis,
- · Feedback from Middle and Back office functions.
- Respect of the main new regulatory requirements: Proper distribution KIDs in compliance with the PRIIPs regulation as well as respect of Manufacturer's Product Governance obligations and inducement restrictions according to MIFID II.

In certain cases, the bank is permitted to reduce the list of available counterparties in order to comply with regulatory requirements.

This instance also allows the endorsement of the eventual entries or exits of brokers/counterparties. The suspension of use of a counterparty can also be decided outside these counterparty review committees to take into account:

- · Credit events susceptible of putting at risk the counterparty's financial solidity,
- Restrictions stemming from sanctions by national or supranational institutions.

This instance can only be held in presence of the totality of the permanent members, which includes representatives from all the departments involved in the front to back chain.

To be noted that veto rights are given to the Compliance and Risk and departments. The latter may also impose reduced risk limits.

Furthermore, the counterparty review committee gives rise to the definition of action plans, of which the progress is evaluated in the following committees. Lastly, the conclusions of this committee are the subject of a summarized communication to the Bank's market counterparties.
